YEAR-END PROCESSING OF PURCHASE REQUISITIONS (PRS) CONTAINING EXPIRING FUNDS All PRs citing appropriated funds that expire on September 30, 2004, must be processed through NASA's financial system (SAP/R3) in sufficient time to route to the Procurement Office on or before the below dates. This will increase the likelihood of obligation prior to expiration of funds on September 30, 2004. As a result, KSC's CFO and Procurement Officer have jointly established the following cut-off dates for receipt of PRs containing expiring funds: June 30, 2004 for PRs with a total estimate over \$25,000 July 31, 2004 for PRs with a total estimate equal to or less than \$25,000 Make sure the PR Header Text is annotated to reflect "Expiring Funds." If funding status is unknown, the final GG approver will review to determine if funds are expiring and will annotate the PR prior to routing to Procurement. GG will also notify OP periodically of all open, unobligated PR line items that contain expiring funds. Any PRs citing expiring funds that are generated after the applicable cut-off date must be cleared off-line with an approving Contracting Officer prior to entry in SAP. See the job aid at <http://www-op.ksc.nasa.gov/ifmp/JA.htm> for the appropriate approving Contracting Officer for your directorate. Enter the Contracting Officer's name in the PR Header Text and his associated purchasing group (PGrp) in the proper field when creating the PR in SAP. Requisitioners are advised that PRs with non-expiring funds received after the above cut-off dates may be held until after September 30, 2004, to permit priority treatment of those PRs containing expiring funding. Points of Contact: Finance, GG-B-C Debbie Hurlburt, 867-9438 Procurement, OP-AM Sean D. Howe, 867-7358 Your support is needed to make this fiscal year-end as smooth as possible (OP-AM)
